17" 16:9 Wide Screen LCD Monitor in 6U

## V-R171P-SDI

The V-R171P-SDI is a 17" high resolution (1280 x 768) LCD panel. This unit can accommodate an SDI, composite video, or a S-Video signal with an active loop through for each. In addition to the digital and analog loop throughs, this unit also has a scalable VGA input and a 10-bit converted output from the digital input. It has front mounted buttons with LED indicators and controls for brightness, color, tint, and contrast. A ratio button allows the unit to switch between 16:9 and 4:3 ratios. The unit includes power supply and owners manual.
