Three 5" LCD Monitors in 3 RU

## V-R53P

The V-R53P is a rack mounted unit that has three independently controlled 5" active matrix LCD panels with loophrough capability. These 5" panels have 960 × 234 pixels making them a true high resolution LCD panel. This unit also has a unique feature that allows the unit to tilt up or down for optimum viewing angle. The unit fits into an EIA standard 19" rack, three rack spaces high. Each of the three screens has a built in color bar generator, individual front mounted selector buttons with LED's and color, tint, brightness and contrast controls. Each screen has two composite video inputs and outputs, and a VGA input for computer monitoring. Unit comes complete with power supply and is available in either NTSC or PAL format.
