

Ikegami®

Dual 7" wide 16:9 aspect LCD Monitor

V-R72P-2C

The V-R72P-2C is a rack mountable unit that has two 7" 16:9 active matrix LCD panels with NTSC/PAL auto recognition. These panels have 1440 x 234 pixels making them a true high resolution LCD panel. The unit offers 2 composite video inputs per panel with loop through capability. The unit fits into an EIA standard 19" rack, 3U high. Each of the screens can switch between 16:9 and 4:3 aspect ratios and has a built-in color bar generator, individual front mounted selector buttons with LED's and color, tint, brightness and contrast controls. Unit comes with power supply and instructions.
