Low-Power LCD Color Monitor

# **TLM-600**

**The TLM-600 color monitor employs a-Si TFT LCD to deliver high brightness and low power consumption, with minimal space required for installation.**

● **High Resolution**

The TLM Series employs a-Si TFT active-matrix LCD panel with 320 × 234 pixels to achieve superior resolution to its 6-inch CRT counterparts.

● **Low Power Consumption**

As compared to conventional monitors that consume large amounts of power because of their CRT, the TLM-600 can minimize power consumed due to its LCD. This will result in a significant difference when it comes to system configuration. The TLM-600 offers a substantial advantage when used in places where power resources are limited, especially in ENG/EGP vans.

● **Minimal Space Required**

Because of its LCD panel, the TLM-600 is very lightweight. Its depth is also reduced to achieve a compact body as a whole.

● **Rack-Mount Type Available**

Three units of the TLM-600 can be accommodated in a rack-mount cabinet by use of special brackets so that they can be used as a triple-rack-mount type (TLM-603).

**Specifications**

Display size	104(H) × 78(V)mm
Aspect	4:3
Pixels	320(H) × 234(V)
Pixel pitch	0.32(H) × 0.32(V)
Pixel Arrangement	RGB Stripe
Drive Method	a-SiTFT Active matrix type
Gradations(Display colors)	Fullcolour
Brightness	300cd max
Surface Coating	AG coating
Power consumption	Less than 25W
Operating temperature	0~40°C
Power supply	AC100-120V/AC200-240V
Dimensions	150(W) × 177(H) × 163(D)mm
Input signal	NTSC Composite 2inputs 75ohm
